AIMS and SCOPE

Journal of Turgut Ozal Medical Center (ISSN: 1300-1744) is the scientific official journal of the Inonu University Faculty of Medicine. It is published quarterly March, June, September and December. The essential aim of the Journal of Turgut Ozal Medical Center is to publish scientifically high quality clinical and experimental research articles on fields of medicine which can contribute to the literature data. In addition, review articles, case reports, editorials, letters to the editors and manuscripts on publication ethics and medical history, which can contribute to the education practices of physicians and health sector professionals within the scope of the journal’s target audience and which can increase the level of scientific communication between the authors and readers, are included in the scope of the journal.

The journal publishes articles in English language. All articles are evaluated through a double-blind review process by independent and unbiased national and international reviewers. Information on preparing and submitting manuscripts for publication and information on article evaluation process are available in Instructions for Authors page both online at www.totmdergisi.org and in printed issues of the journal.

In order to protect the environment, the journal is printed in limited numbers on acid-free paper. Full content of all manuscripts published by the Journal of Turgut Ozal Medical Center is available and can be downloaded at www.totmdergisi.org free of charge. Publication in this journal is totally FREE (No publication fees). Financial expenses of the journal are covered by the Inonu University School of Medicine.

© Copyright: The journal owns the copyright of all published articles. Statements and opinions expressed in the published material herein are those of the authors. Manuscript writers are not paid by any means for their manuscript. All manuscripts published must be accompanied by the “Copyright Transfer Form” that is available on the journal web site.

Basic Publication Rules

The editorial and publication processes of the journal are shaped in accordance with the guidelines of the International Committee of Medical Journal Editors (ICMJE), World Association of Medical Editors (WAME), Council of Science Editors (CSE), Committee on Publication Ethics (COPE), European Association of Science Editors (EASE), and National Information Standards Organization (NISO).

Disclaimer

Statements or opinions expressed in the manuscripts published in Journal of Turgut Ozal Medical Center reflect the views of the author(s) and not the opinions of the editors, the editorial board and the publisher; the editors, the editorial board and the publisher disclaim any responsibility or liability for such materials.

Publication Fee

None

Access to Journal Content

The abstracts and full texts of published articles can be accessed free of charge at www.totmdergisi.org
© All rights of the articles published in Journal of Turgut Ozal Medical Center and displayed online at www.totm.org are reserved by the Journal of Turgut Ozal Medical Center

Publishing Permissions: Applications for publishing permissions should be sent to the Editorial Office.

INFORMATION FOR AUTHORS

GENERAL INFORMATION

Journal of Turgut Ozal Medical Center welcomes original articles, case reports, editorials, and letters to the editor and review articles on basic and clinical medical sciences. The official language of the journal is English. All manuscripts which will be published in the journal must be in accordance with research and publication ethics.

Manuscripts are received with the explicit understanding that they have not been published in whole or part elsewhere, that they are not under simultaneous consideration by any other publication. Manuscripts are also checked by iThenticate system to ensure content originality. Direct quotations, tables, or illustrations that have appeared in copyrighted material must be accompanied by written permission for their use from the copyright owner and authors. All articles are subject to revise by the editors and referees. Acceptance for publication is based on significance, and originality of the material submitted. If the article is accepted for publication, it may be subject to editorial revisions to aid clarity and understanding without changing the data presented. All authors should contribute to the submitted article directly either academically or scientifically. Presentations at congresses or symposia are accepted only if they are not published in whole in congress or symposium booklets or proceedings. Authors are expected to acknowledge the event at which they presented their work as a footnote.

No fee is charged for submission, publishing, colored figures or open access. Publication in this journal is free of charge. All the costs are covered by the Turkish Association for Journal of Turgut Ozal Medical Center.

Policy of screening for plagiarism: The manuscripts are scanned by the Publisher’s Office using the iThenticate program for determination of plagiarism and non-ethical situations.

In publication or citation search, the name similarities of the authors, typographical errors and institutional changes can cause confusion.

To prevent this, researchers need to obtain a descriptive ID. ORCID (Open Researcher and Contributor ID) is a researcher-specific international URI with a 16-digit number. You can register for free for individual ORCID at http://orcid.org. Please indicate the ORCID number of all authors when submitting your article.

Manuscript submission: All manuscripts should be submitted through the online system of the journal at www.totmdergisi.org or www.jtomc.org. Articles submitted in other formats will not be considered.

CATEGORIES of MANUSCRIPTS

Journal of Turgut Ozal Medical Center publishes the following types of articles:

1. Original Articles: Original prospective or retrospective studies of basic or clinical researches in areas relevant to medicine.

Abstract of an Original Article: 200-250 words, the structured abstract should contain the following sections: objective, material and methods, results, conclusion.

Structure of an Original Article: Introduction, Materials and Methods, Results, Discussion, Acknowledgements, References sections must be included.

2. Review Articles: The authors may be invited to write or should be experts in the proposed subject of review article.

Abstract of a Review Article: 200-250 words, without structural divisions.

Structure of a Review Article: Titles or related topics and references.

3. Case Reports: Brief descriptions of a previously undocumented disease process, a unique unreported manifestation or treatment of a known disease process, or unique unreported complications of treatment regimens. Case reports should include an adequate number of images and figures. Case reports should be accompanied
by "Informed Consent" whether the identity of the patients is disclosed or not. The "Informed Consent Form" is available at www.inonutipdergisi.com.

Abstract of Case Reports: 100-150 words, without structural divisions should be Structure of Case Reports: Introduction, Case Report, Discussion, References.

4. **Editorial**: Special articles are written by editor or editorial board members. Abstract is not required for editorials.

5. **Letter to the Editor**: These are letters which include different views, details, experiments and questions of the readers about the manuscript that were published in this journal in the recent year. The answer to the letter is given by the editor or the corresponding author of the manuscript and is published in the journal.

Structure of Letter to the Editor: There is no subtitle in letter to the editor. The number of word and references should not exceed 1000 and 10 respectively. Submitted letters should include a note indicating title, name of authors, page number and year of manuscript that written about it and also it must be listed in reference list.

**REVISIONS**

Authors must indicate the changes on the main text while resubmitting revised files, and also answers to each reviewer suggestions separately must be included in the letter. Page and line number of corrections must be included as well. Revised form of manuscripts must be sent to journal within 30 days, otherwise revision option may be canceled. Warning letter will be sent and then after 15 days, manuscript will be rejected. If authors need extension of time for revisions anyhow, the journal must be informed before the deadline of revision.

**PUBLICATION**

When a manuscript is accepted, then checked for structure, grammar, typing errors and punctuation marks. If there is any mistake, send back to authors for corrections within three days. Before publication proof of accepted manuscript is sent to authors and their final approval requested within three days. After approval, manuscript is sent to publication.

**PREPARING THE MANUSCRIPT**

Manuscripts should be typed double-spaced with margins of 3 cm. Articles should be set out as follows: cover letter, title page, abstract and key words, main text, acknowledgment, references, tables and illustrations. Table and illustration pages should also include the heading or legend, and be numbered below or above the page.

**Abbreviations**: Abbreviations should be defined in parenthesis where first time written. For more than two abbreviations, please use a comma or semicolon. (e.g., In this sentence, the word “Open Access” is used twice. In the next sentence, the word “Open Access” is used three times.)

**Keywords**: Should be at least three keywords. The words should be separated by a semicolon (.).

**Acknowledgements**: Conflicts of interest, financial support information, grants and all other editorial and/or technical assistance should be presented at the end of the text.

**References**: References in the text should be numbered in parenthesis and listed serially according to the order of appearance in a separate page, double-spaced, at the end of the paper in numerical order. All authors' initials, names and surnames, article titles, journal titles, date, volume, number and pagination must be indicated. E.g.: Short FL, Blower TR, Salmond GPC. A promiscuous antitoxin of bacteriophage T4 ensures successful viral replication. MolMicrobiol 2012;83(4):665-8.

**Reference Format for Books**: Initials of author's names and surnames, chapter title, editor’s name, book title, city, publisher, date and pages must be indicated.

**References to article spending for publication**: Kaya A, Aktaş EO. Perception differences between in violence against child. Med. Science. Accepted article: October 25, 2013. Published Online: Nov 19, 2013.

**Figures, Pictures, Tables and Graphics**: All figures, pictures, tables and graphics should be cited at the end of the relevant sentence. Explanations about figures, pictures, tables and graphics must be placed at the end of the article. Figures, pictures/photos must be submitted to the system as separate .jpg or .gif files (approximately 500×400 pixels, 8 cm in width and scanned in 300 resolution. Tables must be prepared by on Microsoft Office word files by using ‘insert table’ order and it must be in easily readable format. All abbreviations must be explained at the bottom of each figure, picture, table and graphic. For figures, pictures, tables and graphics, relevant permissions need to be provided and indicated during submission. Pictures and photographs must be in color, clear and with appropriate contrast showing details adequately.

**Open Access and Commons User Licenses**

**Open Access**: The Journal of Turgut Ozal Medical Center is an open access journal which means that all content is freely available without charge to the user or his/her institution. Users are allowed to read, download, copy, distribute, print, search, or link to the full texts of the articles, or use them for any other lawful purpose, without asking prior permission from the publisher or the author. This is in accordance with the BOAI definition of open access.

**Commons User Licenses**: Creative Commons Attribution-NonCommercial (CC BY-NC) For non-commercial purposes, lets others distribute and copy the article, and to include in a collective work, as long as they credit the author(s) and provided they do not alter or modify the article.

**For Correspondence**: Journal of Turgut Ozal Medical Center Editorial Office, Inonu University Faculty of Medicine, Malatya, 44069, TURKEY.

CONTENTS

ORIGINAL ARTICLES

The role of vascular elastography and carotid artery intima media thickness methods in the determination of non-syndromic ascending thoracic aortic aneurysm
Dogus Hemsinli, Hatice Ayca Ata Korkmaz, Gaye Baki, Erkan Vurulkan, Safiye Tuba Kaplan, Selim Kul, Inan Utku Turkmen
1-6

Is there any relationship between ureteral DJ stent colonization and lower urinary tract symptom severity?
Bulent Kati, Yusuf Yakupogullari, Emre Can Polat, Eyyup Sabri Petl, Ali Gunes
7-11

Internalized stigmatization and social functioning in psychiatric patients
Sevgi Nehir Turkmen, Melek Yorulmaz, Enes Koza, Selin Gumustas Ozdemir
12-17

Evaluation of changes in vitamin B12, ferritin, folate acid, and thyroid hormone levels after sleeve gastrectomy
Ugur Dogan, Mehmet Tahir Oruc
18-21

Nursing department students’ knowledge and use of complementary and alternative medicine methods
Edibe Pirincci, Ferit Kaya, Sultan Cengizhan, Fulya Onal
22-29

Correlation of central corneal thickness with central macular thickness in premature infants
Berna Dogan, Muhammet Kazim Erol
30-34

An evaluation of the neutrophil-to-lymphocyte ratio as a prognostic and predictive marker in thromboangiitis obliterans
Gokalp Altun, Dogus Hemsinli
35-38

Mid-term results of treatment with curettage and grafting in tumor-like cysts of long bones
Mehmet Esref ENCAN, Resit Sevimli
39-44

Relationship between peritoneal permeability with inflammation and subclinical atherosclerosis in peritoneal dialysis patients
Ozlem Yayar, Baris Eser, Alper Bozkurt
45-50

Living with the patient who has persistence vegetative state: a qualitative study
Metin Dincer, Nazan Torun
51-56

Should colonoscopy screening be performed in patients with adnexal mass?
Hacer Uyanikoglu, Faik Tatli, Ahmet Uyanikoglu
57-59

The role of dynamic and diffusion weighted magnetic resonance imaging in differentiating malignant and benign portal vein thrombosis
Mustafa Koc
60-64

Infectious dermatological diseases findings of the wrestlers according to regions
Omer Kaynar
65-69

Olanzapine-induced renal damages and metabolic side effects: the protective effects of thymoquinone
Sedat Bilgic, Deniz Tastemir Korkmaz, Sebile Azirak1 Ayse Nilay Güvenc, Nevin Kocaman, Mehmet Kaya Ozer
70-75

Evaluation of hepatitis a, b and c serological assays and complete blood count results in medical school students
Burcu Kayhan Tetzik, Eda kayhan, Ozlem Kayhan, Omer Demirbag, Cemiz Yakinci
76-79

Tethered cord syndrome: 5 year clinical experiences and surgical results
Yunus Kacar, Royal Mehtiyev, Zaur Ramikhanov, Cahit Kural, Yusuf Izci
80-85

Results of scleral fixed intraocular lens implantation
Ercan Ozsoy, Behice Suheeda Duman, Abuzer Gunduz, Tongabay Cumurcu
86-88

Evaluation of central macular thickness after penetrating keratoplasty
Nagehan Can, Mete Guler, Elif Yusufoglu, Fatih Celik, Fatih Cem Gul, Ercan Ozsoy
89-91

The comparison of the mRNA expressions of tgfB1, bfgf, 1, ngf and matrix metalloprotease III genes in cervical and lumbar disc tissues
Seyho Cem Yucetas, Atilla Yilmaz, Elif Gulec, Cem Ozic
92-95

Ultrasonography and Doppler ultrasonography findings of children with iron deficiency anemia
Mustafa Koc, Feyza Girgin, Selami Serhatlioglu
96-99

Evaluating effects of different musical types on depression, sleep quality, mental state and anxiety in stroke patients
Esra Dogru Huzmeli, Ismet Melek, Nilay Comuk Balci, Nilufur Cetisli Korkmaz, Murat Gunel, Ersin Dag
100-104

Prognostic factors for survival in adult patients with grade II glial tumors
Hatice Onder, Gul Kanyilmaz, Meryem Aktan, Ersin Karahacioglu
105-111

Do elevated blood calcium levels in patients with peptic ulcer facilitate perforation?
Sahin Kahramanca, Turgut Anuk, Ali Cihat Yildirim
112-114
